

Humane Society CEO to Massachusetts animals: **DROP DEAD**

The Humane Society of the United States is closing its only wildlife care facility in New England, a death sentence for the 2,000 animals it helps each year.

At the same time, HSUS is spending \$2 million pushing Question 3, a Massachusetts ballot measure that would ban 85 percent of eggs and pork from being sold in the state.

Just another example of HSUS' twisted vegan agenda and upside-down priorities.
